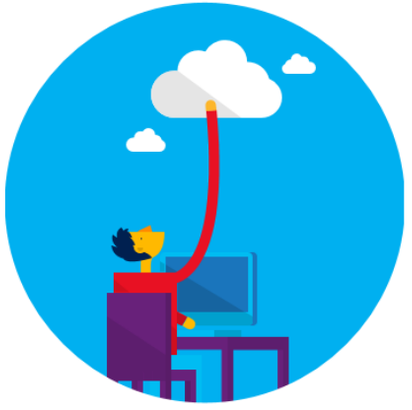
SUNET

The promises of the modern workplace



Modern workplace

- Work from anywhere
- Choose the device you want or bring your own
- Quick, friendly out-of-box experience
- Self-service

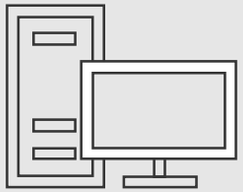
Cloud IT

- Integrated and cloud-based security
- Simpler application delivery through Store/SaaS
- Data intelligence for better business insights

Lower TCO

- Minimize on-premises infrastructure costs
- Unified identity, device and app management
- Self-service deployment without imaging

Traditional vs. modern IT



Traditional IT

Single Device

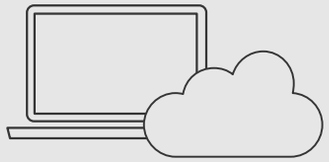
Business Owned

Corporate Network & Legacy Apps

Manual

Reactive

High-touch



Modern IT

Multiple Devices

User and Business Owned

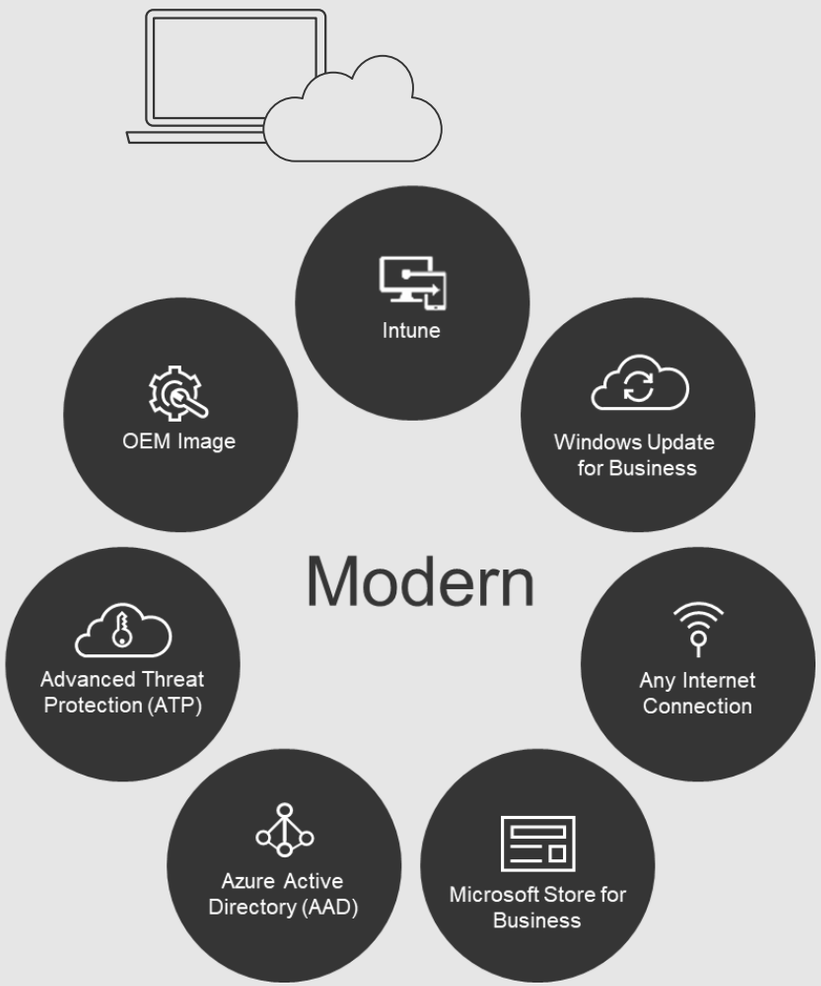
Cloud Managed & SaaS Apps

Automated

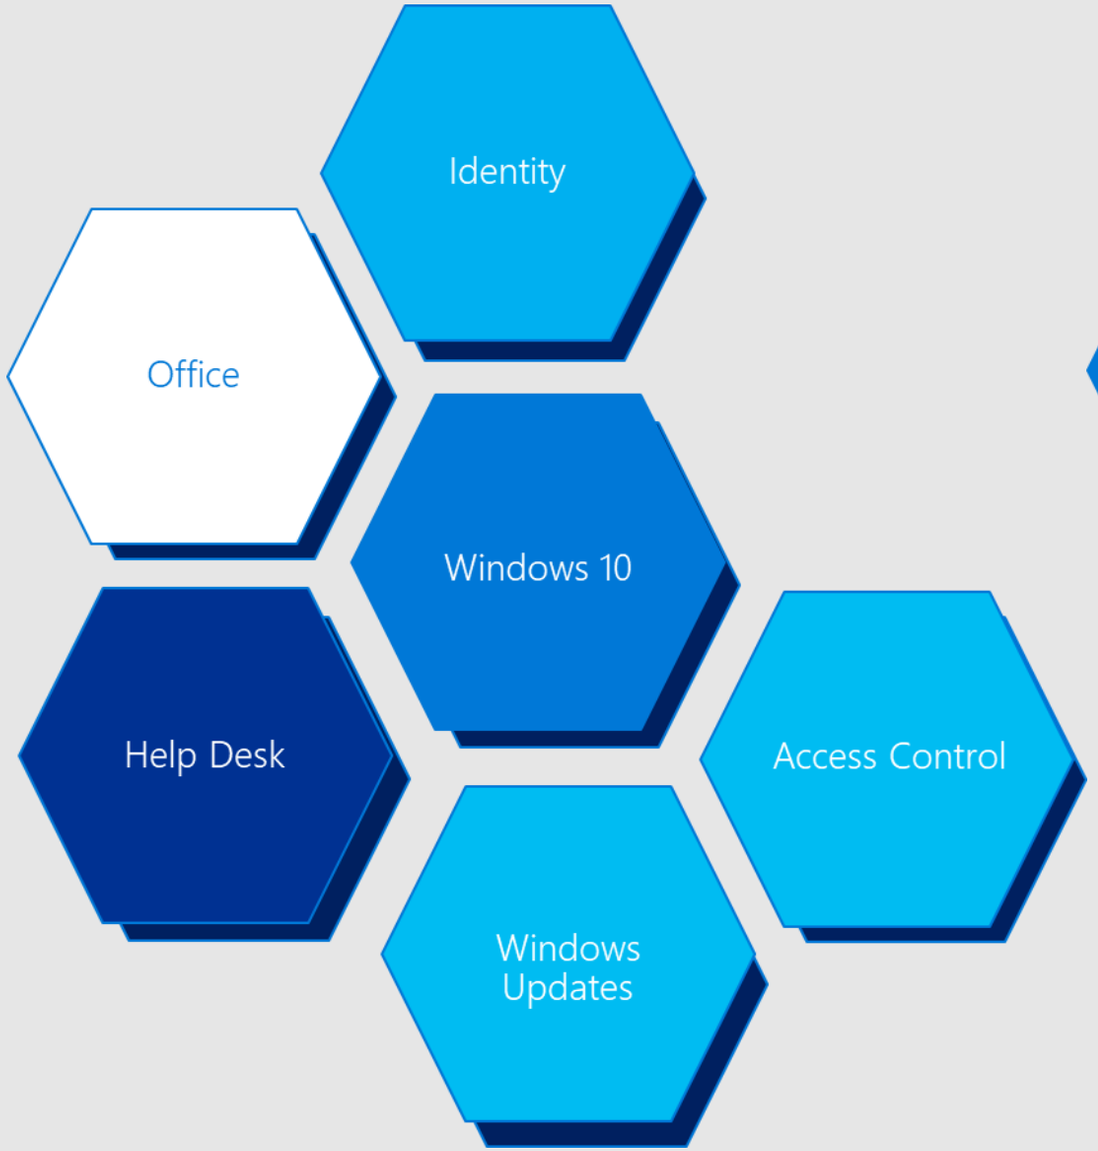
Proactive

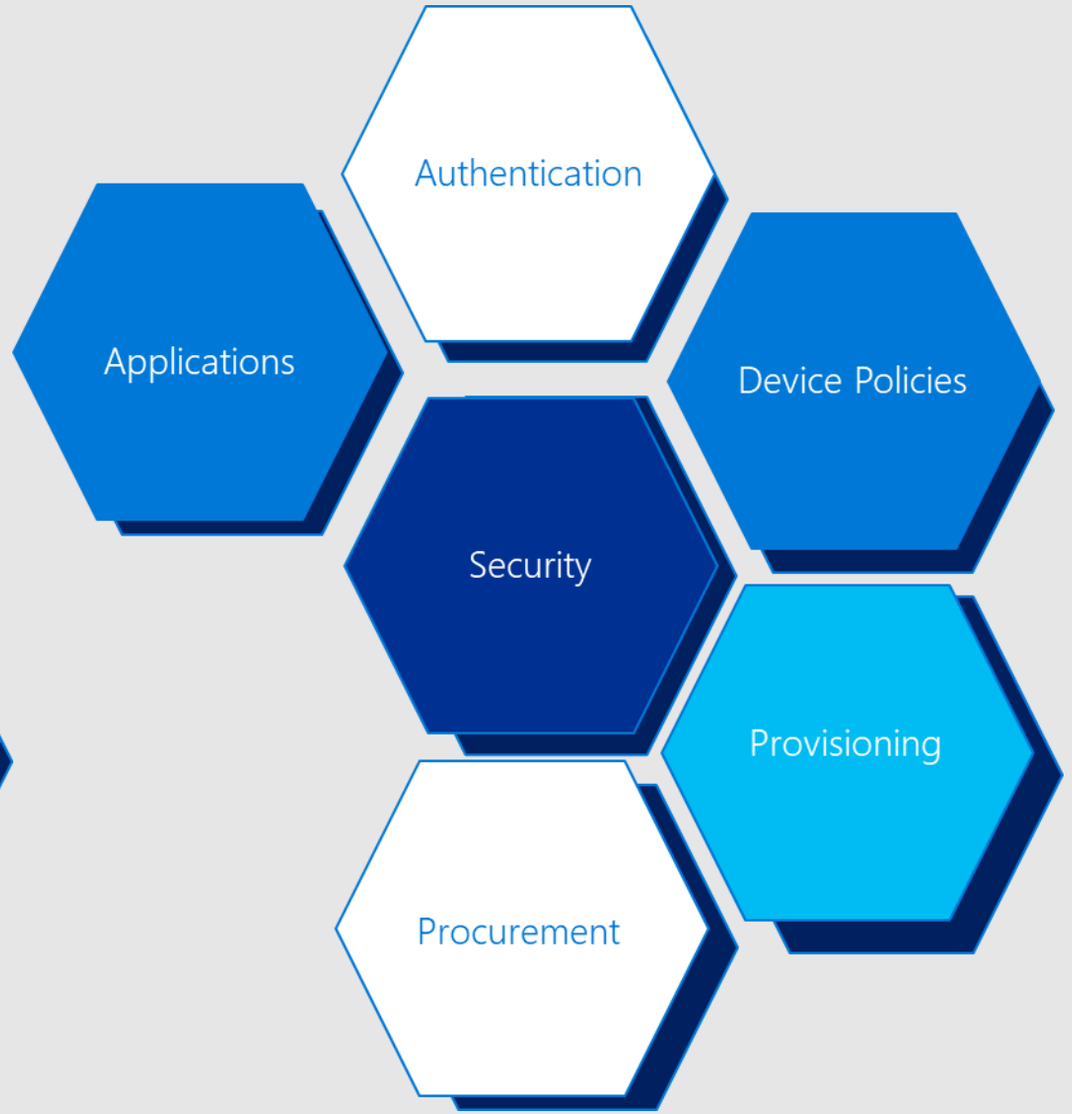
Self-Service

Traditional vs. Modern IT - tools



Modernizing end user computing





Microsoft's take on Modern Workplace

"A complete, intelligent, secure solution to empower employees"

Office 365

Unlocks creativity

Windows 10

Built for teamwork

Integrated for simplicity

Enterprise Mobility + Security

Intelligent security

Simplified management & security

Embrace cloud-based management and transition at your pace while staying in control.

Agentless

Unified identity, device and O365 ProPlus mgmt.

Office 365 ProPlus MGMT

Integrated data protection

Microsoft 365

EMS

Always up to date

Deliver the latest features and security.

Cloud updates mean you don't need to have on-premise update servers.

Control what updates are deployed, to whom and when.

Self-service deployment

Make any new PC enterprise-ready via a simple self-service experience.
