

Introduction to Task Force Network Operation Center (TF-NOC)

Stefan Liström

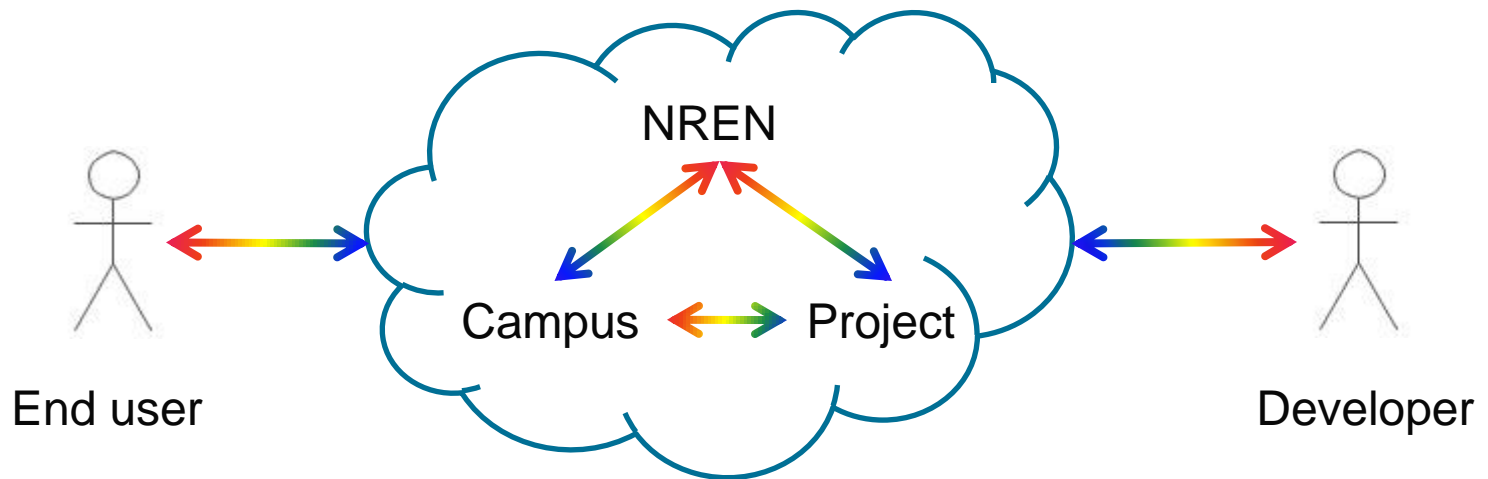

NORDUnet

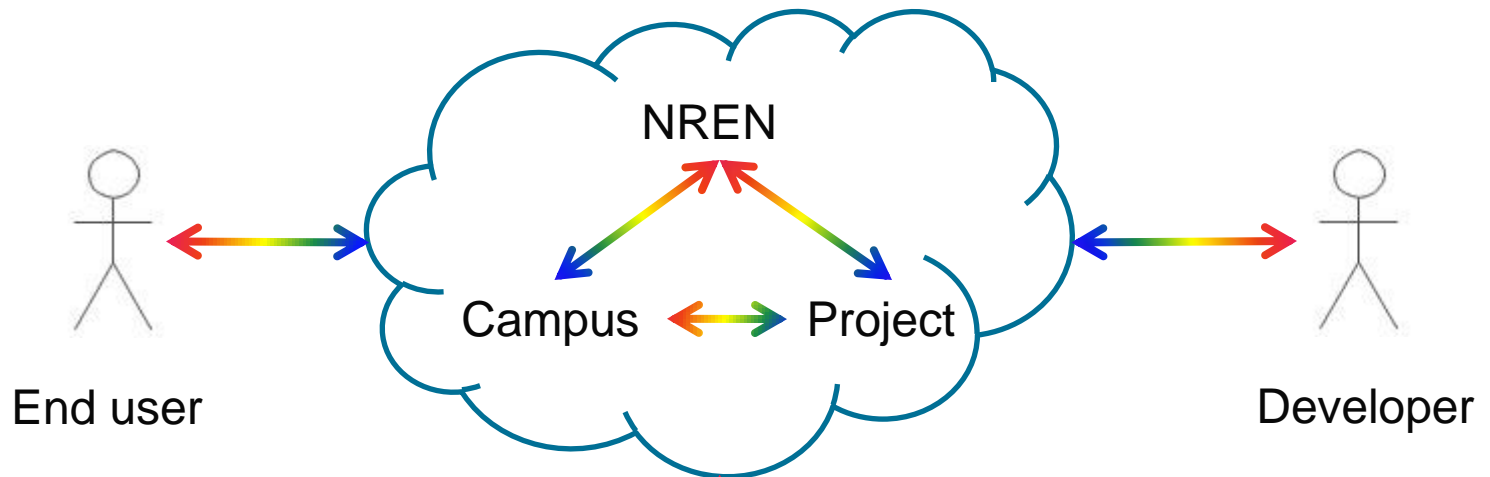

Nordic Infrastructure for Research & Education

Benefits:

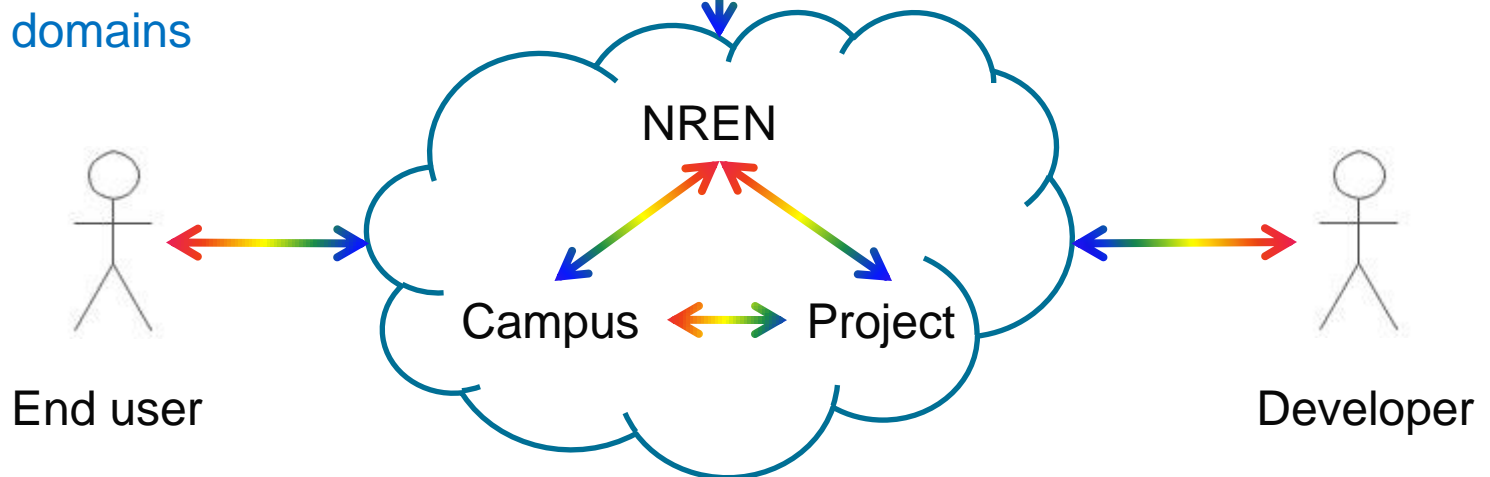

- Ensure future operations is improved
- Make better use of resources
- Save time

- What information is necessary for each entity?
- How do we communicate that information between entities?

End to end services usually involves NOCs from different domains

What & How

Future operations

Use of resources

Save time

Ensure future operations is improved by:

- Gathering operations people together
- Enable focus groups
- Influence development directions

Make better use of resources by:

- Discussing measurements
- Investigate outsourcing vs. insourcing
- Consolidate monitoring

Save time by:

- Transparent documentation
- Sharing procedures
- Agree on workflows
