

201601 - Public report

Unscheduled:

- January 26th: The red link to Södertorns högskola was down due to a fiber fault in Huddinge
- January 26th: SUNET web was not working. Service was restored after we changed some configuration on backend servers.
- January 19th: We had a link outage in south green network of SUNET. Th reason was a fiber break which was repaired.
- January 18th: Outage on the VPN service between Fränsta and Marieberg.

- January 18th: The Sunet-Play service was down due to missing metadata which had to manually be reloaded in the SAML-module by local Kultura admin.
- January 16th: The link between lnu-br2 and lnu-br1 was flapping. Restarting of optical node fixed it.

Scheduled:

- January 14th: Supplier performed mandatory maintenance in Umeå-Vindeln.

- January 12th: A planned maintenance was performed to fix a degraded laser problem in the Corestream in Lund.
