

201603 - Public report

Unscheduled:

- March 26th: The link between Sundsvall and Nysäter was down on the north red network. A change in the ILA was done to fix it.
- March 23rd: Link was down between Hakkas and Luleå due to a fiber cut. The fiber is now repaired.
- March 3rd: There were bit errors on one of the fpc on core router in red network. After the restart of the FPC, bit error issue was resolved and the links are running error free.

- March 3rd: One of the links towards CTH was down due to broken hardware. This has been replaced and everything is working again.
- February 29th: We had a fiber break between Lidköping and Skövde. It has now been fixed by the carrier.

Scheduled:

- March 17th: A new volume on SUNET shared storage was added.
- March 15th: A maintenance was performed on SUNET Adobe connect.
