

Operational Forum

Scope

Is attended by NREN Operational managers, NOC Managers, Senior Operations, OSS development staff and NORDUnet NOC manager and CNOO.

The purpose of the Operational forum is to exchange operational experience and best practices, as well as coordinate and align the operational systems development efforts across the Nordics. Further the forum will strengthen trust and increase cooperation between the Nordic NREN organizations.

The operational Forum work will be presented on a wiki with the goal to increase the information and knowledge exchange between departments and organisations operating networks and services.

Further information regarding the Forum work and meetings can be found at <https://portal.nordu.net/display/opsforum/Home>
