

NORDUnet Video Conferencing - Terminal Access

NORDUnet Video Conferencing:

Terminal Access from stand alone terminals or terminals connected to a gatekeeper capable of resolving URI/E164 addressing

You can access the NORDUnet Video Conferencing Service using URI/E164 Dialing:

Your Terminal	Dial String	Example - NORDUnet Test Virtual Meeting Room
LifeSize Systems	gatekeeper.nordu.net##Meeting_ID	gatekeeper.nordu.net##632462500
Mirial Softphone	Meeting_ID@gatekeeper.nordu.net	632462500@gatekeeper.nordu.net
Polycom Systems & PVX	gatekeeper.nordu.net##Meeting_ID	gatekeeper.nordu.net##632362500
Sony Systems	gatekeeper.nordu.net##Meeting_ID	gatekeeper.nordu.net#632462500
Tandberg Systems	Meeting_ID@gatekeeper.nordu.net	632462500@gatekeeper.nordu.net

If the above direct connection fails you can connect to gatekeeper.nordu.net (IP 109.105.113.228) and follow the on screen instruction to choose you meeting room by utilizing the keypad on you endpoint system.

[You can reach NORDUnet Vconf Support here.](#)

Terminal Access from terminals connected to a gatekeeper NOT capable of resolving URI/E164 addressing:

Connect to gatekeeper.nordu.net (IP 109.105.113.228) and follow the on screen instruction to choose you meeting room by utilizing the keypad on you endpoint system.
