

Home

This is the Space for Conference 2011 Website

This space contains all the content and common structure for the website.
The actual public website starts at: <https://portal.nordu.net/display/ndn2011web/index>

People who haven't logged in won't see any of the Confluence UI. This will be done once we go public.

Editing content

The most common use case is to edit the content pages under:
[central-content](#)

These pages are used (by including them) by the actual pages that generate the website:
[Internal](#)

Just edit a page and you will see how other pages are included.

Instruction for using styles

- I will write some instruction how to get the styles working (the red-dotted boxes etc) but for now just look at an existing page (click edit)

Content of this space
