List of PKCS11 modules

> ⊙ This list of software and hardware must by no means be interpreted as an endorsement or recommendation by the saml-md-aggregator project, SUNET, NORDUnet or any of its employees. This list is provided as a service to the community and for information purposes **only**.

A list of Hardware Security Modules (HSMs) including some software alternatives suitable for testing. I have no idea if they work with saml-md-aggregator (or even work at all). Feel free to drop me (leif at sunet.se) a note with any addition to the list or information about testing you've done.
