Crowd Shibboleth Module

ⓘ Current development version is available in GitHub:
https://github.com/Eduix/crowd-shibboleth-module/blob/master/README.md

!! Attention - By downloading any of the files below you have Read and Accepted the NORDUnet IPR Policy !!

Crowd 2.1.1

shibboleth-filter.zip contains the authentication filter.
nordunet-sso.zip contains a crowd plugin with two servlet

- ssocookieservlet, which is used as the login point for applications
- an example claimAccount servlet which in NORDUnet's case was used to claim old user accounts

Crowd 2.5.x

crowd-2.5-shibboleth-filter-and-sso-plugin.zip contains the authentication filter and also the crowd plugin which contains a servlet that can be used as a login point for applications and a servlet which can be used to achieve multi domain sso. The zip also contains a library project shibboleth-filter-config which is a dependency used by the filter and the plugin.
