201109 - Public report

Unscheduled:

- September 19th: A fiber break in Kalmar caused loss of redundancy for LNU, BTH and LU. All affected links were restored when the fiber was repaired.
- September 16th: Troubleshooting a software issue in the transmission NMS caused an unexpected outage on MAH's green link to SUNET.
- August 31st: A faulty transponder caused loss of redundancy to MDH which was replaced later.

Scheduled:

- September 25th: Our fiber supplier performed maintenance work causing outages for customers in the west green network.
- September 21st: A fiber reconnection work was carried out in north red network.
- September 14th: A network maintenance was carried out in one of the SUNET core link between Stockholm and Visby.
