REM Firewall needs to open: No
REM
REM Extract to MSI => SPSS_Statistics_21_win32_.exe /b".\temp"
REM ###########################################################

SETLOCAL

REM Kör setup för IBM SPSS Statistics 21
msiexec.exe /i "%~dp0IBM SPSS Statistics 21.msi" /quiet AUTHCODE="******************"

endlocal

REM Return exit code to SCCM
exit /B %EXIT_CODE%
```

Info:

Type the full directory path of the folder created in Step 01 (e.g. 'C:\Users\Public\Stats 20 MSI').

Note 1: There is no space between '/b' and the directory/folder name.
Note 2: IF the directory path name contains spaces (e.g. 'Stats 20 MSI') THEN the path name must be placed inside double-quotes (e.g. SPSS_Statistics_20_win32_.exe /b"C:\Users\Public\Stats 20 MSI")

(12) Press the Enter key to execute the command sequence.
(13) A window will appear containing a reference to 'InstallShield Wizard'.
(14) The window will display the status of the extraction process.
(15) A window will appear containing the phrase 'Welcome to the InstallShield Wizard'.
(16) Select the 'Cancel' button.
A window will appear requesting confirmation (e.g. 'Are you sure...'), select the 'Yes' button.
A window will appear containing the phrase 'InstallShield Wizard Completed'.
(17) Select the 'Finish' button.
A number of file, including the MSI file for the product will appear in the folder indicated in the command (e.g. 'C:\Users\Public\Stats 20 MSI')

Note 3: For documentation on IBM SPSS-specific commands for use with MIS files, see 'Administrator's Guide' appropriate to your license type (e.g. 'Site', 'Concurrent' Users Guide'
