

201307 - Public report

Unscheduled:

- July 19th: There was an outage in the North Green network in Luleå due to a broken transmission card.
- July 3rd: A faulty transmission module caused an outage on the green link between HH and SUNET.
- June 27th: One of the link between Stockholm and border router in Lund in red network took longer time to restore after the fiber break. Reason for such behavior could not be found.

Scheduled:

- July 22nd: Planned maintenance was performed in order to investigate signal issues in the West Red network between Mellerud and Trollhättan.
- July 3rd: Our fiber provider swapped fiber pair to mitigate a degraded signal between Borås and Ulricehamn.
- June 30th: Supplier performed a planned fiber maintenance .
