

201409 - Public report

Unscheduled:

- September 25th: There was an outage on the green link to Örebro due to an unexpected restart of a transmission card. We have monitored this for 4 days now and no new restarts has occurred.
- September 14th: We had a fibre damage between Norsholm and Linköping on the south red network. Supplier fixed the fibre.
- August 31st: A faulty transmission card in the node in Stockholm caused multiple outages on the green link to HKR.

Scheduled:

- September 26th: Supplier performed cable maintenance.
- September 23rd: A planned ODTR measurement was preformed in order to troubleshoot a degraded signal in a DWDM in Karlstad on the west red network.
- September 15th: Carrier performed a planned maintenance.
- September 14th: Carrier performed a planned maintenance.
