

NORDUnet 2016 tender for Learning Management System

The NORDUnet 2016 tender for Learning Management System:

The scope of this procedure is to secure one or more framework contracts for a Learning Management System, for the Nordic research and higher education community.

NORDUnet is inviting potential suppliers of Learning Management Systems to bid for a framework contract according to the requirements put forward and developed throughout the process.

The procedure is carried out by NORDUnet on behalf of the National Research and Education Networks (NRENs) as listed below

- DeIC - the Danish e-Infrastructure Cooperation (Denmark)
- SUNET - the Swedish University Computer Network (Sweden)

The Tender is published under OJEU TED publication number: 2016/S 177-318553.

Below you will find the tender process and relevant documents as they are release during the process.

Any questions regarding this tender to be send to tender@nordu.net with <NORDUnet LMS tender 2016> in the subject fied.
