

CTO Forum VC - 29 August 2019

Logistics

- Date: 29.08.2019
- time: 10:00 - 12:00 CEST
- VC: <https://nordunet.zoom.us/j/8804330816> (or see below agenda for other connection options)

Agenda

1. NORDUnet NGN update
2. Storage Tender update
3. Zoom on-prem cloud recording
4. CAE and Hong Kong link
5. GÉANT Update
 - a. OCRE tender
 - b. EOSC meeting, questionnaire
6. NTW
 - a. Program
 - b. Registrations
 - c. Time & Frequency
 - d. Nordic Ansible workshop
 - e. T&I Hackathon
7. Round table updates - All
8. AoB

Participants

- DeIC: Martin, Tangui
- SUNET: Valter, Pelle
- UNINETT: Vidar, Olaf
- RHNET: none
- FUNET: Matti
- NORDUnet: Lars, Jørgen, Josva, Erik-Jan

Notes

- NDN NGN
 - Tender out; 18 companies have registered
 - Two stretches have been migrated to SUNET spectrum.
 - Aerial fibre links work better with DCI boxes than with old-ish CIENA gear
 - Vasa-Umeå-Trondheim tender ongoing
 - Stockholm - Turku tender is going out this week, closing data end September
 - SUNET STO site move ongoing
 - DeIC preparing for tenders for links for NGN; A few things have to be resolved for Esbjerg.
 - UNINETT moving one Oslo pop
 - Qvist: so far, it looks like we're roughly within budget
- Storage Tender
 - Replies received, NDN selected IBM platform
 - Equipment being delivered, kick-off this week, installation first half September, to be operational in October
 - Installation in Ørestad and Ballerup sites
- Zoom on-prem cloud recording
 - Planned to be ready by end 2019
 - Depends on storage platform
 - Uses middle layer code developed by AARNET, interfacing from Zoom APIs to media platforms
 - We should advertise more how we are reusing NREN code here
- CAE-1 link to Hong-Kong working
 - We have MPLS circuit FRA-HK.
 - Traffic to be moved CAE-1 link, MPLS link until confirmed there's no issue
 - To be revisited by end of year
 - NDN router up in Singapore. Passing out own traffic, connected to R&E open exchange
 - Peerings to come.
 - To peer with AARNET in both London (when AARNET get their router up) and Singapore.
 - We should probably do some PerfSONAR graphs of roundtrip for marketing
-

Join meeting using Zoom

Meeting ID: 880 433 0816

Join from PC, Mac, Linux, iOS or Android: <https://nordunet.zoom.us/j/8804330816>

Or iPhone one-tap (US Toll): +14086380968,8804330816# or +16465588656,8804330816#

Or Telephone:

Dial: +1 408 638 0968 (US Toll) or +1 646 558 8656 (US Toll)

+358 800 102 188 (Finland Toll Free)
